# What makes a good digital collections project?

- Supports instruction or research needs
- Enhances an existing digital collection
- Is unique, e.g. not previously digitized nor available online in any format
- Is distinctive and has potential for academic use and general education interest (K-12)
- Does not circulate, e.g. rare books, materials from Special Collections
- Is distinctive and has potential for academic use and general education interest (K-12)
- In the public domain or rights permissions can be granted for making available to the world

# What to consider before proposing a project

- Who is the audience for this digital project?
- How will users interact with this material?
- Is the material already digitized and available online?
- Do you have permission to digitize and publish online, this material?
- What impact will digitization/metadata entry have on your daily work?
  - Copyright / permissions research
  - Organizing audio/video digitization
  - Describing multimedia or photographic materials associated with the project
  - Language expertise
  - Writing content for the landing page of the collection

# How to navigate UWDC

- Search by Keyword, Author, Title, or Series
- Start your search by exploring by Collection, Format, Topic, Author (catch all for different creators), Languages, or Place
- Can search item metadata or full-text data, but these are separate searches
- Download almost anything you see using standardized download links
- Review copyright status so that you know what you can do with the image once you've downloaded
  
- Let's check it out! <https://search.library.wisc.edu/search/digital>
